NOTE.—The figures in the above Table (No. 4) give the amount of the actual net receipts derived from the Revenue due to the Exchequer; and do not therefore correspond exactly with the figures in Table No. 2, which gives the payments made into the Exchequer, "Exchequer Receipts," on account of these duties in each year.

\* The net receipt of Property and Income Tax, &c., represents the amount of Tax actually collected within the year (irrespective of the year of assessment) less the amount of Tax refunded, &c., within the year (see note § on page 41). The amounts under the several schedules show the approximate net receipt of the Tax based on the assessments of property and income under each schedule.

† Stamps on Patent Medicines and Playing Cards transferred to Excise from 1st April 1909.

§ Including arrears of 1909-10.

¶ The increased Stamp Duties did not come into force until the year 1910-11.

							TOTAL EXPENDITURE. §¶

§ Includes the repayment of loans by various Local Authorities to the London County Council Consolidated Loan Fund. ¶ Provision was made for the abolition of School Boards by the Education Act of 1902, and their powers and duties to be transferred to Local Education Authorities (County, Town, and Urban District Councils). Certain School Boards, however, continued to act in years later than 1902-3.

\* See note to Table No. 21 above.

\*\* The increase was due to expenditure by the Port of London Authority.

\* "Loan Charges" comprise repayments of principal made otherwise than out of sinking funds, payments to sinking funds, and interest on borrowed moneys. In the case of the London County Council, however, the sums paid into the Council's Consolidated Loans Fund (redemption of debt) account are excluded, for the year 1910-11 and earlier years, except in so far as they were actually expended in those years in repayment of borrowed moneys; but for the years 1911-12 and subsequent years such sums are included. (See note ¶ p. 63.)

† Table A (on pp. 60 and 61) includes, and Table B (on pp. 62 and 63) excludes, expenditure met out of loans under the Education (Provision of Working Balances) Act, 1903.

† The total expenditure given above slightly differs each year from that given in Table No. 22 (pp. 54-5), owing mainly to the exclusion of the expenditure of Police Pension Funds (which is included in the previous Table), and to the educational returns being taken from different sources, whereby, in 1902-3 to 1907-8, certain expenditure on account of higher class public schools is included in the above figures but excluded from those given in Table No. 22.

‡ The election expenses paid to County and Burgh Authorities under the Poor Law Acts are excluded in all years.

§ Includes 736,946, in 1907-8 in respect of expenditure incurred in former years and met temporarily out of Contingent &c. Funds.

TOTAL EXPENDITURE.							Total Expenditure of Local Authorities defrayed out of Loans.

† Exclusive of expenses under Medical Charities, Vaccination, and Dispensary Houses Acts, which are included under "Hospitals."

‡ The expenditure from loans on account of the purchase and electrification of the Belfast Tramway System was included under "other expenses" and not under "tramways, &c." in the original returns.

¶ In years prior to 1903-6 the expenditure shown is on account of "Guarantees for Railways, &c." only. In 1905-6 and later years, the expenditure on account of the Belfast Tramway, purchased by the Corporation on 1st January, 1905, is also included.

‡‡ The cost of waterworks in Rural Districts has been included with "Sewerage, &c." in 1906-7 and previous years, and with "Waterworks" in later years.

 † Including receipts or expenditure of Boards of Guardians, of the Managers of the Metropolitan Asylum District and Poor Law Sick Asylum and School Districts, and of certain Poor Law Joint Committees.

‡ The amounts in Column 6 for the year 1901-2 and subsequent years are exclusive of the sums required from rates in respect of parishes within the Metropolitan Boroughs by the Receiver for the Metropolitan Police District and the London County Council, and for purposes of the Burial Acts, the Public Libraries Acts, and the Baths and Washhouses Acts.

†† Includes election expenses paid to County and Burgh Authorities under Poor Law Acts. The figures are also inclusive of loans repaid and interest.

‡ The amounts received are exclusive of the sums advanced by the Government and expended in the purchase of seed, under the various Seed Supply Acts, and of the rates levied to meet such advances.

\*\* The amounts shown in Column 6 from 1908-9 inclusive are exclusive of contributions for purposes of the London County Council and the Corporation of the City of London which, in prior years, were paid by the Guardians of the City of London Union, but which are now paid by the Common Council of the City of London.

†† Includes expenses under the Medical Charities Act, Vaccination Act, Registration of Births, Deaths, and Marriages Acts, Superannuation Acts, and National School Teachers Act. The repayments of advances under the various Seed Supply Acts are excluded.

† Excluding Warrington from 1912, previously included.

‡ The figures for Plymouth and Southampton have been increased by the inclusion of vessels "calling off" the port to land or embark passengers or baggage. Such vessels, unless "brought to" in the immediate vicinity of docks or quays, were excluded up to the end of 1906, but have been included from 1st January 1907.

§ See † note, p. 288.

¶ The change stated in the † note to Table No. 56 on pp. 288-9 has caused increases in the figures for some Ports from 1912 inclusive, and decreases in others.

Notes.--The above Return includes vessels belonging to the Isle of Man and the Channel Islands.

The number of persons employed in the year is the sum of the number of persons forming the first crew of each vessel employed during the year.

The Home Trade includes vessels trading or going within the following limits, viz.: the United Kingdom, the Isle of Man, the Channel Islands, and the Continent of Europe between the River Elbe and Brest.

The Foreign Trade includes vessels trading or going beyond the above limits.

Some vessels known to be trading abroad are omitted from the Return owing to the fact that no late information of the number of their crews could be obtained.

\* Vessels employed on rivers and going beyond smooth water limits as defined in the regulations regarding Passenger Vessels, but not beyond partially smooth water limits, have been excluded from the Employment Returns since the end of 1910. 781 sailing vessels of 34,976 tons and 86 steam vessels of 3,809 tons, which would have been included in the totals for 1911 had the basis remained unchanged, have thus been excluded.

† Including Masters, Pilots and Lascars. The numbers of British and Foreign sailors and of Lascars are stated below:—

† A revision of the list of articles included under the head of Minerals was made in the year 1903, and the tonnages of Minerals and General Merchandise, and the receipts therefrom, are not strictly comparable with those given in prior years.

‡ The decrease shown, on comparison with 1907, is apparent only—a duplication of 20 miles in the returns made to the Board of Trade having been corrected in 1908.

NOTE.—Most British Joint Stock Banks are registered under the Companies Act, 1862, and, consequently, the bulk of the Capital of such concerns is included in the figures given in the above Tables. With the exception of Municipal Tramways, the majority of the Companies working tramways in the United Kingdom are registered under the Companies Acts, and their Capital is accordingly also included. Railway Companies in the United Kingdom are not incorporated under the Companies Acts, but by special Acts of Parliament, as they need powers beyond those conferred by registration under the Companies Acts. Their Capital is, therefore, not comprised in these Tables.

§ The figures given under this head relate to the Postal Telegraph and Telephone services combined. Owing to the amalgamation of the services the figures cannot be separately distinguished. A new method of grading was introduced in 1912-3, and for purposes of comparison the figures for the previous year 1911-2 have been given on the same basis.

|| Including telegrams dealt with entirely by Submarine Cable Companies in this country.

‡ The large increases shown under the heading of "Telegraphs and Telephones" in 1911-2 are mainly due to the transfer of the business of the late National Telephone Company. The "length of line" transferred has not, however, been included until 1912-3, as figures for the previous year are not available, but the figures relating to "length of wire" are complete.

\* For years up to 31st July, 1904, reference should be made to the statistics relating to Secondary Schools and Schools of Science contained in the Volumes of Statistics and the Annual Reports published by the Board of Education. The figures are not given here, because in many cases they include particulars which cannot properly be compared with those given in this table. The term "Secondary School" bears the meaning assigned to it in the Board of Education's "Regulations for Secondary Schools."

† Part-time Teachers are counted once for each school in which they served.

‡ The figures for years up to the year ended 31st July, 1907, relate to 30th June of the year, or, in the case of a comparatively small number of schools, to the following 30th November. The figures for the year ended 1st July, 1905, relate to 1st October, 1907. The figures for subsequent years give the number of pupils on 1st January of the year, and for the years 1913 and 1914 they are classified according to their ages on that date.

\* The statistics compiled for years up to 31st July, 1901, relate to the Evening Schools recognised under the Evening Continuation School Code of the late Education Department. They are accordingly not included, because they are not comparable with the statistics given in this table, which relate to Evening Schools as defined in the Board of Education's "Regulations for Technical Schools, etc." (Ch. 2). The year ended 31st July, 1902, was a transitional year.

† Students who attended more than one School are counted separately in respect of each School which they attended; the number of individual Students was therefore less than the number given in the table.

‡ For the year ended 31st July, 1910, the ages relate to 31st July, 1909.

§ Students who attended more than one Course are counted separately in respect of each Course which they attended; the number of individual Students was, therefore, considerably less than the number given in the table.

\* The terms "Day Technical Classes" and "Technical Institution Courses" in this table bear the meanings assigned to them in the Board of Education's "Regulations for Technical Schools, etc." (Ch. 3). Institutions in receipt of grant for the year ended 31st July, 1912, under the "Statement of Grants available from the Board of Education in aid of Technological and Professional Work in Universities in England and Wales" are not included in the figures for that year: this explains the decrease in the figures for "Technical Institution Courses" for 1911-12. Medical Schools have also been excluded throughout. Day Technical Classes and Technical Institution Courses were not recognised under the Regulations before the years ended 31st July 1905 and 1904 respectively; and in the former year Students in Day Technical Classes who were under 15 years of age were not recognised for grant.

† Including, for years up to the year ended 31st July, 1908, a small number of Students under 15 years of age.

NOTES.—There has been a re-classification of paupers in the above Table in consequence of the use of the terms "able-bodied" and "not-able-bodied" having been discontinued in 1914-5.

\* For Amount received and expended for relief of the Poor, see Table No. 28, p. 71.

† The numbers of casual paupers given in these columns comprise those who received in-door relief on the night of the 1st January or the 1st July respectively, and those who received out-door relief at any time during the same days. The number for 1916 represents those relieved on the night of Friday, 31st December 1915.

† This is the net total after deducting persons counted twice in the preceding columns, as having received in-door as well as out-door, relief on the days mentioned. For 1916 it is the total of the preceding four columns.

NOTE.—There was a re-classification of the pauper returns in 1914-15. Particulars regarding "Able-bodied Paupers" are not now available.

\* The mean numbers shown in this Table for any year are the means of the numbers of paupers relieved on January 1st of that year, and on July 1st preceding.

† A number of paupers, especially out-door paupers, ceased to be dependent on poor relief in 1911 in consequence of the partial removal of the pauper disqualification for old-age pensioners. The number of persons formerly in-door paupers who became pensioners in January 1911 was 5,077, while the corresponding number of persons formerly out-door paupers was 117,338. The total number of in-door paupers over 70 years of age decreased from 57,701 at January 1st, 1910, to 45,747 at January 1st, 1916. The corresponding number of out-door paupers decreased from 183,223 at January 1st, 1910, to 8,792 at January 1st, 1916.

‡ Paupers who received both In-door and Out-door Relief on the same day are not counted twice in the total.
